May 12	May 13 – A - Dowden - Naihe - Padilla - Richards	May 14 – B	May 15 – A - Argyle - Nelson - Alburaidi / Ramirez - Piper / Pennington	May 16 – B	May 17 – B	May 18
May 19	May 20 – A - Florence / Morton - DeLion / Gerhardt - Huerta / Tyler - Ellis / Poe	May 21 – B	May 22 – A  TEN RULES TO LIVE BY (Special Final Lesson)	May 23 – B	May 24 –  LAST DAY OF SCHOOL / Graduation	May 25

There will be THREE key elements to this project and your final grade.

1. **Handout** – Having it filled out completely, accurately, and turned in on time. Diagnosis, Causes, Symptoms, Treatment.
2. **Powerpoint / Poster** – It is expected you will include at least three images and the Diagnosis, Causes, Symptoms, and Treatment. At a glance, people should be able to understand the key things you want them to. Better grades are given for those students who use images, video, sound, etc. to truly “show” us what the importance is of this. CHECK FOR SPELLING / GRAMMAR!
3. **Your Presentation** – On the day you present you are expected to be at school 😊 Also, to have some information you can share, not just reading your powerpoint or poster to us, but telling us why this topic is interesting to you. **If you have any objects, food, or posters to show or share, that will add to your points.**

**ALL Powerpoints must be emailed to CPT Curtis (I WILL respond with “Got it”) OR on a flashdrive. I recommend getting them to me BEFORE the day you are to present. It is YOUR responsibility to make sure it’s ready to go. Having to log into your email the day of is NOT acceptable (and you won’t be allowed to use my computer)**
