

TEST CORRECTIONS

(for CPT Curtis)

Test corrections are *OPTIONAL* (you are *NOT* required to do them... however, if your grade is low, or you ask about extra credit, and yet haven't ever done these.... then you haven't shown you want a higher grade 😊)

In order to get HALF the points you missed (I round up) you must do the following:

1. On a **separate** piece of paper, you will write the number for each question missed.
2. *Do the following:*
 - a. For **multiple choice** or **matching** write the whole question and the correct answer (NOT the wrong answers)
 - b. For **True or False**, write the whole sentence and then True or False.
 - c. For **Short answer, graphs, large questions**, you may just write the question number and the correct answer.
 - d. For **Essay**, choose a *different* essay topic, and write 2-3 sentences answering it.
3. Staple your corrections to **your original test** and turn it in to your class box (If you took the test online, just turn in your paper)
4. **You must do ALL the questions you missed. You can NOT pick and choose to just get back a certain number of points.**
